About This Vehicle

This 1965 Pontiac GTO is offered with Pontiac Historic Services (PHS) documentation and a detailed photographic record covering the exterior, interior, engine compartment, VIN and component identification, and visible condition. The PHS documentation helps establish this vehicle's factory-recorded configuration at the time of production. It does not confirm that the engine, transmission, paint, or other components currently installed are original or "matching numbers." This vehicle has been modified from its documented factory configuration. Buyers are encouraged to review the full photo record below, the complete documentation available on the website, and to arrange an independent inspection to verify present condition and component originality before purchase.

Documentation

Full PHS documentation (billing history package, information letter, production figures, and window sticker history) and the complete categorized photo gallery are available for review at the website's Documents page. Contact the seller for the website link or additional photos and video.

This document combines general model-year history with details specific to this vehicle. Pontiac Historic Services (PHS) documentation reflects factory-recorded configuration at the time of production and is not a mechanical inspection or condition report. Buyers should independently verify component codes, casting numbers, date codes, and current condition before purchase. Not affiliated with, endorsed by, or sponsored by Pontiac, General Motors, or Pontiac Historic Services.
